

**Robert McBride Pension Fund**  
**Statement of Investment Principles ("SIP")**

**Purpose of this Statement**

This SIP has been prepared by the Trustee of the Robert McBride Pension Fund (the "Fund"). This statement sets out the principles governing the Trustee's decisions to invest the assets of the Fund.

The Fund's investment strategy is derived from the Trustee's investment objectives. The objectives have been taken into account at all stages of planning, implementation and monitoring of the investment strategy.

Details on the Fund's investment arrangements are set out in the Investment Implementation Document ("IID").

**Governance**

The Trustee of the Fund make all major strategic decisions including, but not limited to, the Fund's asset allocation and the appointment and termination of investment managers.

When making such decisions, and when appropriate, the Trustee takes proper written advice. The Trustee believes that its investment adviser, Isio Group Limited, is qualified by its ability in, and practical experience, of financial matters, and has the appropriate knowledge and experience. The investment adviser's remuneration may be a fixed fee or based on time worked, as negotiated by the Trustee in the interests of obtaining best value for the Fund.

**Investment objectives**

The Trustee invests the assets of the Fund with the aim of ensuring that all members' current and future benefits can be paid. The Fund's funding position will be reviewed on an ongoing basis to assess the position relative to the funding target and whether the investment arrangements remain appropriate to the Fund's circumstances. The Fund's funding target is specified in the Statement of Funding Principles.

The Fund's present investment objective is to achieve a return of around 2.0% per annum above the return on UK Government bonds.

**Investment strategy**

The Trustee takes a holistic approach to considering and managing risks when formulating the Fund's investment strategy.

The Fund's investment strategy was derived following careful consideration of the factors set out in Appendix A. The considerations include the nature and duration of the Fund's liabilities, the risks of investing in the various asset classes, the implications of the strategy (under various scenarios) for the level of employer contributions required to fund the Fund, and also

the strength of the sponsoring company's covenant. The Trustee considered the merits of a range of asset classes.

The Trustee recognises that the investment strategy is subject to risks, in particular the risk of a mismatch between the performance of the assets and the calculated value of the liabilities. This risk is monitored by regularly assessing the funding position and the characteristics of the assets and liabilities. This risk is managed by investing in assets which are expected to perform in excess of the liabilities over the long term, and also by investing in a suitably diversified portfolio of assets with the aim of minimising (as far as possible) volatility relative to the liabilities.

The assets of the Fund consist predominantly of investments which are traded on regulated markets.

### **Additional Voluntary Contributions**

Additional voluntary contributions previously collected by the Fund from individual Fund members are held in Schemes operated by Prudential Assurance Society and Clerical Medical, companies registered in the United Kingdom and are allocated to those members who made the contributions.

### **Leverage and collateral management**

The Trustee will adhere to all relevant regulatory guidance and requirements in relation to leverage and collateral management within the Fund's liability hedging (LDI) portfolio.

The Trustee, via the Fund's implementation manager, has a stated collateral management policy / framework. The Trustee has agreed a process for meeting collateral calls should these be made by the Fund's implementation manager. The Trustee will review, and stress test this policy / framework over time.

### **Investment Management Arrangements**

The Trustee has appointed Schroder's Investment Management ("Schroders") as the implementation manager and investment manager for the Fund's assets. Schroders is regulated under the Financial Services and Markets Act 2000.

All decisions about the day-to-day management of the Fund's assets in the underlying funds have been delegated to the implementation manager via a written agreement. The delegation includes decisions about:

- Selection, retention and realisation of investments in the underlying funds in which the Fund invests including taking into account all financially material considerations in making these decisions;
- The exercise of rights (including voting rights) attaching to the investments;
- Undertaking engagement activities with investee companies and other stakeholders, where appropriate.

In addition, the implementation manager also has the discretion to rebalance between the Fund's underlying funds if target allocations or liability coverage fall outside pre-established ranges as agreed by the Trustee.

The Trustee takes investment managers' policies into account when selecting and monitoring managers. The Trustee also takes into account the performance targets the investment managers are evaluated on. The investment managers are expected to exercise powers of investment delegated to them, with a view to following the principles contained within this statement, so far as is reasonably practicable.

The Trustee is responsible for developing its own stewardship policy which includes both voting (where applicable) and engagement. The Trustee believes proper stewardship will result in better management of financially material ESG and climate related risks and opportunities. This is expected to improve the long-term financial outcomes of the Fund which ultimately is in the best interests of the Fund's members and beneficiaries. The Trustee expects its implementation manager to be a signatory to the UK Stewardship Code.

The Trustee receives training on the implementation manager's approach to stewardship. The implementation manager has its own voting and engagement policies documented in its Engagement Blueprint which sets out six sustainability themes to prioritise and which guides the voting and engagement behaviours of the implementation manager. Therefore, to ensure focused voting and engagement with the underlying investment managers, the Trustee, has aligned its stewardship priorities with those of the implementation manager: climate change, natural capital & biodiversity and human rights. The Trustee expects the implementation manager to take their policy and stewardship priorities into account as part of its own stewardship activities and manager selection.

The Trustee reviews, monitors and challenges the implementation manager where necessary in relation to the voting and engagement activities of the implementation manager and the underlying investment managers.

The investment managers' remuneration is based upon a percentage value of the assets under management.

As the Fund's assets are invested in pooled vehicles, the custody of the holdings is arranged by the investment manager.

### **Investment Manager Monitoring and Engagement**

The Trustee monitors and engages with the Fund's investment managers and other stakeholders on a variety of issues. Below is a summary of the areas covered and how the Trustee seeks to engage on these matters with investment managers.

| Areas for engagement   | Method for monitoring and engagement  | Circumstances for additional monitoring and engagement  |
|--|---|---|
| Performance, Strategy and Risk   | <ul style="list-style-type: none"> <li>The Trustee receives a quarterly performance report from the implementation manager which details information on the underlying investments' performance, strategy and market data, which are considered at the relevant Trustee meeting.</li> </ul>   | <ul style="list-style-type: none"> <li>There are significant changes made to the investment strategy.</li> <li>Underperformance vs the performance objective over the period that this objective applies.</li> </ul>  |
| Environmental, Social, Corporate Governance factors and the exercising of rights | <ul style="list-style-type: none"> <li>The Trustee's investment managers provide annual reports on how they have engaged with issuers regarding social, environmental and corporate governance issues.</li> <li>The Trustee receives information from its investment advisers on the investment managers' approaches to engagement.</li> <li>The Trustee will engage, via its investment adviser, with investment managers and/or other relevant persons about relevant matters at least annually.</li> </ul> | <ul style="list-style-type: none"> <li>The manager has not acted in accordance with its policies and frameworks.</li> <li>The manager's policies are not in line with the Trustee's policies in this area.</li> </ul> |

Through the engagement described above, the Trustee will work with its investment advisors and/or managers to improve their alignment with the above policies. Where sufficient improvement is not observed, the Trustee will review the relevant investment manager's appointment and will consider terminating the arrangement.

### **Employer-related investments**

The policy of the Trustee is not to hold any employer-related investments as defined in the Pensions Act 1995 and the Occupational Pension Schemes (Investment) Regulations 2005 except where the Scheme invests in collective investment schemes that may hold employer-related investments. In this case, the total exposure to employer-related investments will not exceed 5% of the Fund's total asset value. The Trustee will monitor this on an ongoing basis to ensure compliance.

### **Direct investments**

Direct investments, as defined by the Pensions Act 1995, are products purchased without delegation to an investment manager through a written contract. When selecting and reviewing any direct investments, the Trustee will obtain appropriate written advice from its investment advisers.

**Compliance**

This Statement has been prepared in compliance with the Pensions Act 1995, the Pensions Act 2004, and the Occupational Pension Schemes (Investment) Regulations 2005. Before preparing or subsequently revising this Statement, the Trustee consulted the sponsoring company and took appropriate written advice. The Statement is reviewed at least every three years, and without delay after any significant change in the investment arrangements.

## Appendix A – Risks, Financially Material Considerations (including ESG and climate change) and Non-Financial matters

A non-exhaustive list of risks and financially material considerations that the Trustee has considered and sought to manage is shown below.

The Trustee adopts an integrated risk management approach. The three key risks associated within this framework and how they are managed are stated below:

| Risks      | Definition  | Policy   |
|------------|---|--|
| Investment | The risk that the Fund's position deteriorates due to the assets underperforming.                                     | <ul style="list-style-type: none"> <li>Selecting an investment objective that is achievable and is consistent with the Fund's funding basis and the sponsoring company's covenant strength.</li> <li>Investing in a diversified portfolio of assets.</li> </ul>  |
| Funding    | The extent to which there are insufficient Fund assets available to cover ongoing and future liability cash flows.    | <ul style="list-style-type: none"> <li>Funding risk is considered as part of the investment strategy review and the actuarial valuation.</li> <li>The Trustee will agree an appropriate basis in conjunction with the investment strategy to ensure an appropriate journey plan is agreed to manage funding risk over time.</li> </ul> |
| Covenant   | The risk that the sponsoring company becomes unable to continue providing the required financial support to the Fund. | <ul style="list-style-type: none"> <li>When developing the Fund's investment and funding objectives, the Trustee takes account of the strength of the covenant ensuring the level of risk the Fund is exposed to is at an appropriate level for the covenant to support.</li> </ul>  |

The Fund is exposed to a number of underlying risks relating to the Fund's investment strategy, these are summarised below:

| Risk                         | Definition  | Policy   |
|------------------------------|---|--|
